Chief of Station, Karlsruhe

1 August 1951

Chief, Pullach Operations Base

Operational *Admiral PENELOPE*

After the CIC Contact with

REF : PHLF 2463

1. On 31 July 1951 EDU CAR of the ZIP HQ headquarters reported to [ ] a complaint of WILBER. About a week ago, WILBER had said, a CIC agent who gave him name as Mr. BALK and not a source as Theresienstr. 1, Berlin, had approached him and had urgently requested the latter to supply derogatory information about one from GRIZARD. (WILBER had asked how CIC knew that [ ] had such information, and WILBER had replied that a CIC source who also knows [ ] had learned and reported this fact.) [ ] attempted to refuse, claiming that he had no such material; but BALK, in the course of repeated visits, has grown insistent. [ ] has therefore had his GRIZARD material photographed; it is herewith included as an attachment.

2. [ ] does not want to have any further contact with CIC, and WILBER is also anxious to prevent such contact. WILBER (and ZIP as a whole) are, however, more than willing to provide CIC with the attached information. Moreover, ZIP suspects GRIZARD of having worked in an [ ] capacity for the French government after 1945 and of having worked (or of still working) for the French IS. Finally, ZIP reports that for the past year GRIZARD has been politically active against [ ] and the party which he represents.

3. EDU CAR made the following requests:

a. That CIC cease approaching [ ] *Admiral PENELOPE*

b. That we not inform CIC of the fact that [ ] is a ZIP Rite. To this end EDU CAR proposed that we tell CIC that [ ] himself has no intelligence ties and wants none but that to save himself further embarrassment and to cooperate with an American request he turned the GRIZARD material over to an AIS source. This source, like the request itself, should therefore not be identified with POB.

4. The GRIZARD mentioned above is seemingly 1/2 Dr. Jakob GRIZARD, who appears in the attachment to MIL-5652 (not to CIC or AIS). For the benefit of CIC and AIS, this attachment is herewith summarized:

- 1 - COS-1 - HLB
- 1 - FDM - 1 - HLB
- 1 - GIB w/att as stated
- 2 - File
